SURYA CONNECT

SOLAR KIT

Product Range: 3kw 5kw 6kw

Complete & ready-to-use solar solution

Presenting our SuryaConnect Solar Kit, a complete, ready-to-install solar solution, engineered for residential and commercial purposes. Our Solar Kit allows you to generate electricity directly from sunlight without any additional equipment. Achieve maximum energy efficiency with our SuryaConnect Solar Kit. It will save you from the hassle of installing and high electricity bills.

Saatvik SuryaConnect Solar Kit comprises several components. These are solar DCR modules, solar on-grid inverter, ACDB & DCDB, and DC & AC cables, Earthing & MMs.

5 Years of Warranty

Made In India

Advanced MPPT Technology

Real-Time Smart Monitoring

KEY FEATURES

No Battery Required

Saatvik SuryaConnect Solar Kit comes as ready-to-use as there is no need to have a battery with it. It ensures lower system costs and minimal maintenance.

Protection Embedded

Saatvik SuryaConnect Solar Kit has safety features embedded in it. It consists of anti-islanding protection, DC isolator, AC isolator, and surge protection as well.

High-Quality Components

SuryaConnect Solar Kit contains top-notch N-TOPCon solar modules and a pure sine wave grid-tied inverter for optimum performance yield.

Merits Of Our

SURYA CONNECT

Solar Kit

Easy & Quick Installation

Taking our solar kit will offer you a smooth & hassle-free experience as you can simply install it on your own by making the entire operation effortless.

Elevated ROI

It can increase your financial value in the long run by cutting down dependency on expensive energy sources throughout the system's lifespan.

Higher Savings

Installing SuryaConnect can reduce your upfront costs with the assistance of government schemes like PM Surya Ghar (Muft Bijli Yojana) & Net Metering policy.

Versatile In Usage

Saatvik SuryaConnect Solar Kit performs efficiently across diverse residential and commercial setups, making it an ideal solution for several real-life cases.
